Hello everyone!

Welcome to Jerusalem and the 2023 CTX International Scientific Meeting! On behalf of the CTX Alliance and the organizing committee, it is our pleasure and privilege to host this first-ever scientific meeting exclusively dedicated to cerebrotendinous xanthomatosis (CTX).

Our goal is to catalyze much-needed international basic research and clinical collaborations for CTX and to advance our understanding for improved outcomes for CTX patients and their families.

Never has there been an international gathering of this many CTX experts at one meeting. Thank you for your attendance and commitment to CTX patients and their families around the world!

Sincerely,

Jean R. Pickford

Executive Director
